- Tabletop charging station included

Controller controlCUE-two

- Ethernet IP enabled, onboard real time clock
- Ports: IP, bi-directional serial, IR/serial, general I/O,s relays
- Enclosure for desktop, rack and wall installation

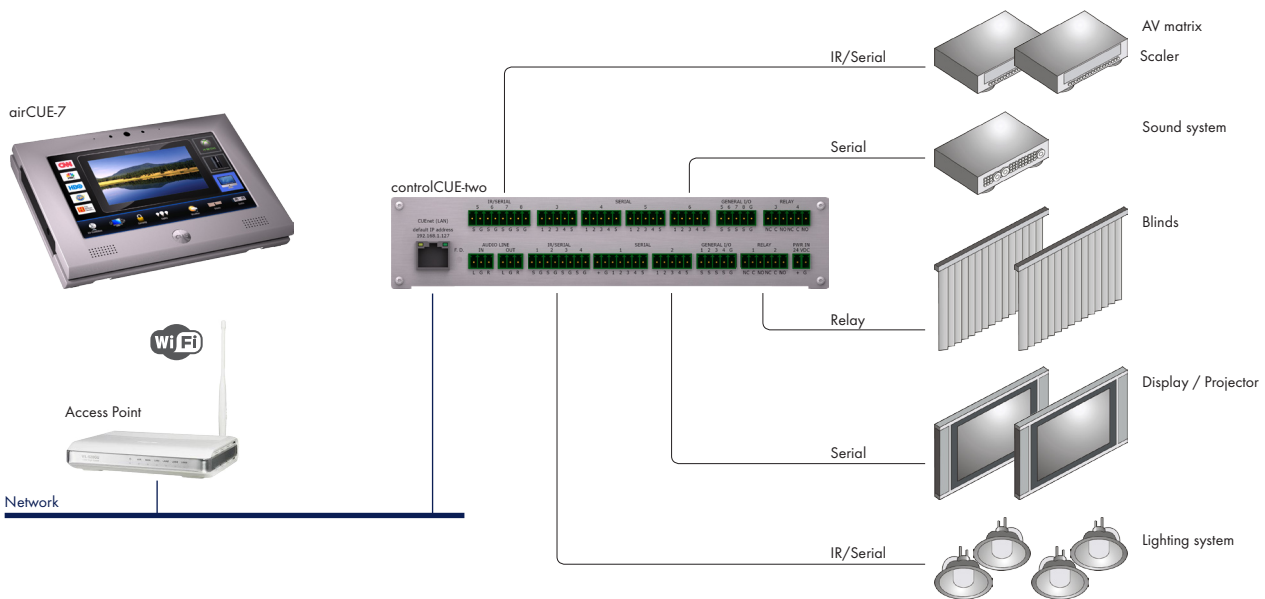

Description

The Elite-C2-7-wifi is bi-directional wireless touch panel control system. This package is flexible enough to be the perfect control solution in small to medium sized applications - meeting rooms, boardrooms, conference facilities and home theatre applications. The package includes the airCUE-7 color touch panel incl. tabletop docking station, standard Wi-Fi Access Point, controlCUE-two controller and accessories.

The 7" diagonal touch-sensitive active-matrix LCD panel caters to the full integration of lifestyle as well as work style. It combines functionality such as multimedia integration, lighting automation, security monitoring, entertainment integration, and meeting & presentation control.

The standard Access Point links the wireless touch panel to the controller. Control ports of controlCUE-two controller include bi-directional serial channels, serial and infrared outputs up to 1.2 MHz, general I/O ports that can be configured as analog inputs or digital outputs and low voltage relay outputs. IP enabled products can be controlled using Ethernet port. IR codes capturing and receiving is provided by internal IR sensor. The controlCUE-two keeps date and time with its on-board real time clock and thus allows for a wide variety of distributed intelligence scheduling applications. Built in web pages allows for unit setup through a standard web browser.
